Current Cookie Use

This website is designed as a static comparison resource and does not intentionally set advertising or analytics cookies.

Essential Technologies

Hosting and security systems may use technical mechanisms needed to deliver pages, prevent abuse, and maintain reliability.

Analytics

No GA4, Microsoft Clarity, or Cloudflare Web Analytics script has been installed in the current build because no analytics IDs were provided.

Browser Controls

You can manage cookies and local storage through your browser settings. Blocking essential security features may affect website reliability.

Updates

If analytics or additional services are added later, this PDF should be updated to describe those technologies.
